Waste Management Policy

1. **Objective**

KFin Technologies Limited (“KFinTech”) demonstrate a high level of commitment to protect the environment. We achieve this by streamlining our activities and focusing on reducing waste. Waste management at KFinTech is based upon our waste management strategy and strong governance, which is elucidated in the Waste Management Policy.

2. **Scope**

This policy shall apply to all establishments of KFinTech, and each employee shall be made a partner in implementing the policy.

3. **Date of Commencement**

This policy will be effective from 3rd, Jan 2022

4. **Policy**

KFinTech is committed in providing hygienic working conditions to all its associates with a focus on protecting environment and preventing any wastage due to our services. This policy is implemented through training and communication to employees, measurement of identified waste and continuous improvement.

KFinTech is committed to reducing waste by implementing the below:

- Provide training to the stakeholders to manage waste.
- Adopt a sustainable waste management philosophy.

Waste Management Policy

- Implement the concept of circularity through waste minimization, segregation, reuse, recycle and eco-friendly disposal according to regulatory requirements or industry best practices.
- E-waste scrap vendor will be selected based on environmental clearance certifications.
- Place waste management posters in various location to sensitize employees.
- Make a task force to study the operations and give recommendations to reduce waste and grow sustainably.

This policy will be reviewed annually or as and when required. The effectiveness of the policy will be checked during the governance reviews.
